NANO AQUARIUMS

Easy to look after, with low running costs and minimum space required, the Fluval range of nano aquariums brings the underwater world into your home without the need for large tanks or expensive equipment.

Small enough to fit on a desk and styled for maximum visual effect, each aquarium is fully equipped to create a unique environment for a small number of fish, shrimps or exotic plants.

chi

19L AQUARIUM SET

Fluval chi helps stimulate the essence of chi-inspired values such as life, health, prosperity and everything that is positive. The calming aquatic setting creates a profound sensory and spiritual experience by combining the soothing sound and motion of bubbling water with ambient illumination.

Elegantly-designed, this contemporary-looking aquatic centerpiece is the perfect addition to any home or office space.

EDGE

23 & 46L AQUARIUM SETS

Simple, yet elegant, the architectural lines of the Fluval EDGE capture emotion and serenity in an easy-to-use aquarium setup. With fully-integrated LED lighting and powerful filtration, the EDGE brings life to any home or office space..

FLEX

AQUARIUM KIT

SPEC

AQUARIUM KITS

NEW LED LAMP!

The Flex aquarium series is not only growing in popularity, but also size with the release of the all-new 115 litre version. You can expect familiar cues such as a distinctive curved front and powerful multi-stage filter, but what sets this latest Flex apart is a noticeably larger pump and Bluetooth-operated Aquasky LED.

The redesigned SPEC aquarium series features an impressive high-output LED that is 20% brighter than the previous generation, making for noticeably bolder fish colours and improved plant growth.

FLUVAL^{SEA} FLEX 123 L saltwater kit

Fluval's popular curved aquarium series now extends to hobbyists who want to maintain a thriving marine environment. This latest addition to the Flex family comes equipped with a powerful Marine 3.0 LED, which operates via mobile device to offer a customizable color spectrum and a fully programmable 24-hour light cycle. The aquarium's integrated filtration system houses two independent multi-stage media chambers for further flexibility and includes additional space for a Fluval PS1 Protein Skimmer, M Series Heater and more.
