Over thirty years of Avicultural and Nutrition Research at HARI

1985-89

The Hagen Avicultural Research Institute got its start with director and founder Mark Hagen in Guelph, Ontario.

1986

After years of formulating and field testing, **PRIME** is launched.

1988

As a direct result of intensive nutrition research, HARI launches **Tropicana High Performance** and **Lifetime Parrot** food.

Late '80s

First young bred from wild caught pairs are born.

Early '90s

1980

Early '80s

Hagen imports parrots for captive breeding.

1986-87

HARI introduces **Tropicana Hand-Feeding Formula**.

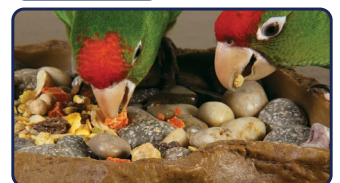

1988-89

HARI moves into new facility in Rigaud, Quebec.

HARI launches **Tropimix**, a line of enriched bird foods with fruits, vegetables, nuts and legumes plus **Tropicana** extruded morsels.

1995

HARI (Hagen Avicultural Research Institute) is a research institute establishment built in 1985. As a leader in avian research, HARI's mission is to promote the advancement and improvement of Companion Bird Care and Aviculture through education and research in areas of psittacine health, nutrition, breeding, early parrot education and product development.

Early 2000s

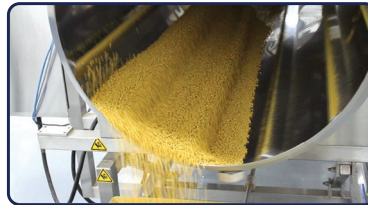

1st Generation of HARI bred pairs begin to breed.

HARI proudly launches new and improved formulation of **Tropicana Hand-Feeding Formula** and moves production to Hagen Industries in Montreal, Canada.

2012

Multi-million dollar investment in new food extruder at Hagen Industries represents a major commitment to the research, development and manufacturing of Made-in-Canada food prioritizing the use of Canadian ingredients.

2014

Seven years in the making, HARI unveils the **Early Parrot Education & Weaning Program (EPE)** for breeders and companion parrot owners.

2018

2010

2nd Generation of HARI bred pairs begin to breed.

HARI introduces **Clay-Cal**, a calcium enriched clay supplement.

2013

You Tube **f**

Continuously educating and connecting with the avian community, **HARI** has over 20k Facebook fans, and more than 50 educational videos available for download.

HARI launches a new research and educational focused website - www.hari.ca

2015

Double yellow-headed Amazon (*Amazona oratrix*):

"Holly", HARI bred and raised for nearly 30 years on Tropicana.

HARI announces a fresh new look to their well-trusted brands. The updated graphics include birds from the HARI flock.

HARI Global Conservation Efforts

HARI is proud to partner with conservation projects in the wild. We support the work of leading organizations in preserving parrot species and their natural world for future generations.

Teaching Avian Care to Future Veterinary Technologists
by providing seminars to Vet nurses, along with the opportunity for internships at the HARI facility.

At HARI, Quality Control is a 3-Step Process

Nutritional/Chemical Assay Raw Material Control

Raw ingredients are inspected, analyzed, and tested for nutrient content, aflatoxins, and residual pesticide contamination.

Biological Assay In Process Control

Blended/extruded ingredients are sampled and tested for microbiology/chemical analysis and nutrient/moisture levels by internal and independent laboratory.

HARI Flock Feeding Trials Final Product Control

Ready to be packaged lots are sent to be tested for final moisture levels, nutritional content, and feeding trials on live parrots at the HARI facility.

TROPICAN[®]

Hand-Feeding Formula

Hand-Feeding Formula:

- ✓ Premium daily nutrition for optimal growth
- ✓ Micro-ground extruded formula
- ✓ Contains optimum levels of protein and other nutrients for growing babies
- ✓ Provides optimum nutrient density and gut motility

Recommended species:

African greys • Amazons • Cockatiels • Cockatoos • Conures • Eclectus • Lovebirds • Macaws • Pionus • Most Psittacines

Tropic Hand-Feeding Formula for parrots is a complete pet food.

Ingredients: Corn, soybean meal, corn gluten meal, wheat, brown rice, dehulled sunflower seeds, dehulled peanuts, sugar, canola oil (preserved with mixed tocopherols), dicalcium phosphate, lecithin, calcium carbonate, yeast culture, flaxseed, dried beet pulp, dried kelp, oat groats, L-lysine, choline chloride, DL-methionine, biotin, vitamin E supplement, niacin, calcium L-ascorbyl-2-monophosphate (source of vitamin C), zinc oxide, manganous oxide, d-calcium pantothenate, vitamin B₁₂ supplement, rosemary extract, beta-carotene, riboflavin, copper sulfate, pyridoxine hydrochloride, thiamine mononitrate, inositol, folic acid, vitamin A supplement, calcium iodate, sodium selenite, vitamin D₃ supplement.

Composition: Cereals 53% (corn, wheat, brown rice and oat groats), derivatives of vegetable origin, vegetable proteins extracts, seeds (flaxseed 1%), minerals, nuts (peanuts 3.8%), oils and fats, yeasts, Algae.

Additives per kg: Nutritional additives; vitamin A (3a672a) 8,250 IU, vitamin D₃ (3a671) 660 IU, iodine (E2) 1.1 mg, copper (E4) 13.2 mg, manganese (E5) 138.6 mg, zinc (E6) 176 mg, selenium (E8) 4.4 µg.

Guaranteed analysis

Crude Protein (min.)	22%	Vitamin A (min.)	5 500 IU/kg
Crude Fat (min.)	11%	Vitamin D ₃ (min.)	550 IU/kg

		°Celsius	°Fahrenheit
0 - 2	90% / 10%	35.5 - 36.5	96 - 98
3 - 7	85% / 15%	33.5 - 34.5	92 - 94
7 - 21	80% / 20%	30.0 - 32.5	86 - 90
21	75% / 25%	27.0 - 30.5	80 - 86

Please refer to our website (www.hari.ca) for feeding guide

Available sizes

B2259	400 g (0.88 lb)
B2263	2 kg (4.4 lb)
B2262	5 kg (11 lb)

As food supplement:

Can be fed dry to lorries, finches, canaries and other small species.

Lories: Feed the formula as a dry powder in a separate bowl. A second bowl may contain some diced fruits mixed with Prime and the formula however make sure the birds first are eating the dry food.

Finches, canaries and other small species: As a dry powder in a separate bowl during stress, moulting, and breeding.

TROPICAN®

High Performance Formula

High Performance Formula:

- ✓ Premium daily nutrition with higher nutrient levels
- ✓ Natural transition from the Tropicana Hand-Feeding formula
- ✓ Balanced calcium and vitamin D for proper egg formation and bone health
- ✓ Encourages natural foraging
- ✓ Multi sizes and shapes satisfy a wide range of species
- ✓ Essential amino acid combination promotes optimal growth and feather development

Recommended species:

Cockatiels • Lovebirds • Small Conures • Conures • Caiques • Quakers • Pionus • Amazons • Macaws • Cockatoos • African greys • Senegals

Tropicana High Performance Formula for parrots is a complete pet food.

Ingredients: Corn, soybean meal, corn gluten meal, wheat, brown rice, dehulled sunflower seeds, dehulled peanuts, canola oil (preserved with mixed tocopherols), dicalcium phosphate, lecithin, calcium carbonate, yeast culture, flaxseed, dried beet pulp, dried kelp, oat groats, L-lysine, choline chloride, DL-methionine, orange oil, banana oil, biotin, vitamin E supplement, niacin, calcium L-ascorbyl-2-monophosphate (source of vitamin C), zinc oxide, manganous oxide, d-calcium pantothenate, vitamin B₁₂ supplement, rosemary extract, beta-carotene, riboflavin, copper sulfate, pyridoxine hydrochloride, thiamine mononitrate, inositol, folic acid, vitamin A supplement, calcium iodate, sodium selenite, vitamin D₃ supplement.

The fruity aroma of Tropicana High Performance Formula is derived from natural fruit oils (banana and orange oil) and is sprayed on to the morsels, along with herbal antioxidants and tocopherols (Vitamin E) right before packaging.

Composition: Cereals 53% (corn, wheat, brown rice and oat groats), derivatives of vegetable origin, vegetable proteins extracts, seeds (flaxseed 1%), minerals, nuts (peanuts 3.8%), oils & fats, yeasts, algae.

Additives per kg: Nutritional additives: vitamin A (3a672a) 8,250 IU, vitamin D₃ (3a671) 660 IU, iodine (E2) 1.1 mg, copper (E4) 13.2 mg, manganese (E5) 138.6 mg, zinc (E6) 176 mg, selenium (E8) 4.4 µg.

TROPICAN®

Lifetime Formula

Lifetime Formula:

- ✓ Premium daily nutrition with a proper balance of nutrients
- ✓ Multi-grain blend with peanuts for high palatability
- ✓ Optimal levels of calcium
- ✓ Multiple sources of protein to generate impeccable feathers
- ✓ Optimal base diet that can be complimented with enrichment foods
- ✓ Multi size morsels and shapes to satisfy a wide range of species

Recommended species:

Cockatiels • Lovebirds • Rosellas • Parrotlets • Conures • Caiques • Quakers • Pionus • Amazons • Macaws • Cockatoos • African greys • Senegals

Tropicán Lifetime Formula for parrots is a complete pet food.

Ingredients: Corn, soybean meal, wheat, dehulled peanuts, dehulled sunflower seeds, brown rice, canola oil (preserved with mixed tocopherols), dicalcium phosphate, calcium carbonate, lecithin, oat groats, dried tomato, flaxseed, L-lysine, alfalfa nutrient concentrate, choline chloride, DL-methionine, orange oil, banana oil, biotin, vitamin E supplement, niacin, calcium L-ascorbyl-2-monophosphate (source of vitamin C), zinc oxide, manganous oxide, d-calcium pantothenate, vitamin B₁₂ supplement, rosemary extract, beta-carotene, riboflavin, copper sulfate, pyridoxine hydrochloride, thiamine mononitrate, inositol, folic acid, vitamin A supplement, calcium iodate, sodium selenite, vitamin D₃ supplement.

Tropicán Lifetime is naturally yellow due to its mixed grain composition; the inclusion of the orange and green pellet varieties are due to the addition of natural vegetable sources – tomato (orange pellets) and alfalfa nutrient concentrate (green pellets). The fruity aroma is derived from natural fruit oils (banana and orange oil) and is sprayed on to the morsels, along with herbal antioxidants and tocopherols (Vitamin E) right before packaging.

Composition: Cereals 72% (corn, wheat, brown rice and oat groats), derivatives of vegetable origin, seeds 3.5% (flaxseed 0.5%), minerals, nuts (peanuts 3%), oils & fats, vegetables, yeasts.

Additives per kg: Nutritional additives: vitamin A (3a672a) 7,500 IU, vitamin D₃ (3a671) 600 IU, vitamin E (a-tocopheryl) (3a700) 500 IU, iodine (E2) 1 mg, copper (E4) 12 mg, manganese (E5) 126 mg, zinc (E6) 160 mg, selenium (E8) 4.0 µg.

TROPIMIX[®]

COCKATIELS AND LOVEBIRDS

COCKATIELS & LOVEBIRDS FORMULA:

- ✓ 100% edible blend
- ✓ No messy hulls or shells; eliminates waste and the risk of pathogens
- ✓ Contains Tropicana extruded granules; rich in nutrients and premium sources of protein
- ✓ Provides stimulating eating experience and foraging opportunities
- ✓ Multi size morsels and shapes to satisfy a wide range of species
- ✓ Complement for supplements such as PRIME and CLAY-CAL
- ✓ Can be served dry or moistened

Tropimix Enrichment food mix for Cockatiels and Lovebirds is a complete pet food.

Recommended species:

Cockatiels • Lovebirds • Parrotlets • Lineolated Parakeets • Conures • Australian Parakeets • Ringnecks • Rosellas

Ingredients: Millet kernel, oat groats, red milo, corn, wheat, toasted split peas, brown rice, dehulled sunflower seeds, soybean meal, dehulled peanuts, flaxseed, cracked corn, toasted buckwheat, dried papaya, corn gluten meal, soybeans, dried split red lentils, dried pineapple, dried carrot, canola oil (preserved with mixed tocopherols), dicalcium phosphate, calcium carbonate, yeast culture, lecithin, dried beet pulp, dried kelp, orange oil, L-lysine, yeast extract, DL-methionine, salt, choline chloride, biotin, vitamin E supplement, niacin, calcium L-ascorbyl-2-monophosphate, zinc oxide, manganous oxide, d-calcium pantothenate, vitamin B₁₂ supplement, beta-carotene, riboflavin, copper sulfate, pyridoxine hydrochloride, thiamine mononitrate, inositol, folic acid, vitamin A supplement, rosemary extract, calcium iodate, sodium selenite, vitamin D₃ supplement.

Composition: Cereals (40%), seeds (34%), vegetables (8%), derivatives of vegetable origin (8%), fruits (4%), nuts (4%), oils & fats, minerals, yeasts.

Additives per kg: Nutritional additives: vitamin A (3a672a) 2,063 IU, vitamin D₃ (3a671) 165 IU, iodine (E2) 0.28 mg, copper (E4) 3.3 mg, manganese (E5) 38.5 mg, zinc (E6) 44 mg, selenium (E8) 1.1 µg.
