

VIVEXOTIC

Vivariums for pet owners, enthusiasts, breeders and retailers

Includes Viva⁺ Range of vivariums

VIVA⁺

Features

Forest Stewardship Council

All our timber comes from recycled sources or FSC sustainable forests. The FSC product label allows consumers worldwide to recognise products that support the growth of responsible forest management worldwide. Environmentally appropriate forest management ensures that the harvest of timber and non-timber products maintains the forest's biodiversity, productivity and ecological processes.

Easy Self Assembly

Vivexotic vivariums and cabinets are designed with as few parts as possible for quick and easy assembly.

Toughened Glass

All the glass used in our vivariums is toughened to BS-EN-12150 kite marked standards. This means that it has up to 5 times its original strength and, if broken, the glass breaks into small, blunt fragments. Normal plate glass breaks into long sharp shards when damaged. As the glass is used for the sliding doors it is crucial that only safety glass is used to prevent serious injury. We aim to conform to BS 14072-2003 for glass used with furniture.

Superior Front Ventilation Rails

All VIVA vivariums now include an innovative ventilation system incorporated into the top and bottom aluminium door rails. This effective system provides a constant airflow throughout the vivarium.

Easy Vents

All vivariums feature an innovative cable access system. Simply remove the specially designed access vents, feed through cable / plug and replace

Security

All VIVA vivariums are supplied with pre-drilled sliding glass doors and a removable 'Slidestopper' door plug to prevent escapes. Alternatively, a stainless steel door lock and key, which can be fitted to any of our vivariums, is available separately, providing greater security against access and theft.

Solid Back

We believe that 3mm hardboard is not suitable for a professional vivarium. Its low compression structure and paint or foil surface means a very short product lifespan. This is why we use the same robust board for all panels, which is 5 times thicker! When sealed, our construction lasts many more years than cheaper manufactured products on the market.

MANUFACTURED IN THE UK

All Vivexotic products are proudly made in the UK

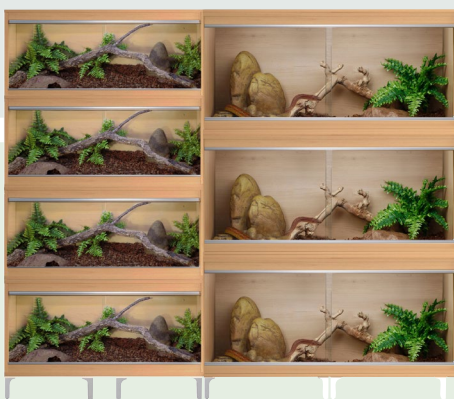

Vivariums

VIVEXOTIC REPTIHOME

A great value living space for your reptile,

Vivexotic Viva⁺

Introducing the VIVA⁺ range of vivariums

Easy Vent

Viva+ Vivariums feature an innovative cable access system. Simply remove the specially designed access vents, feed through cable / plug and replace

Taller Terrestrial Vivariums

Viva+ Terrestrial Vivariums are 66mm Taller than the previous Viva range, giving you extra room for lighting fixtures

Taller Rail

Viva+ bottom rail is 30mm taller than standard Viva giving more space for substrate and is now in a light nickel colour

New Improved Door Stoppers

Re-designed for added security. Arboreal range now includes 2 x stoppers

Complete Edging

Finishing edging now extends around all sides of the Vivariums and cabinets for improved protection against moisture ingress

New Cabinets

Viva+ cabinets feature soft close hinges for less stress to your pets and new nickel handles.

Superior Ventilation

Redesigned, effective ventilation has been built in to the stylish aluminium door rails. These sleek rails are perforated along their length, allowing cool air to enter at the base and warm air to exit through the top, creating superb air flow and preventing overheating. This means no rear vents are needed for terrestrial vivariums, allowing solid backgrounds to be used.

Let Your Vivarium Breathe
With Healthy, Convenient "Front-Flow" Ventilation

- Better animal health and wellbeing
- Less chance of overheating
- Vents are less likely to be obstructed

VIVEXOTIC REPTIVIEW

Item Code	Description
PT4138	Viv Exotic Repti-View Vivarium Oak
PT4139	Viv Exotic Repti-View Maxi Vivarium Oak

Vivexotic Repti-View is the latest range of vivariums added to the Vivexotic family. Repti-View has been designed with the best interests of owner and pet in mind with its great features and glass panelled sides and lid, providing you with panoramic views of your reptile and their home.

Repti-view includes Vivexotic's easy vent system, an innovative cable access system allowing you to easily remove the specially designed access vents and remove cables and plugs. The secure auto lock feature will help prevent any potential escapes and comes with a removable key. Repti-View also has an innovatively positioned external thermometer at the front of the vivarium, giving you a clear view when monitoring temperature and a protected heat mat enclosure incorporated into the base to prevent any accidental exposure to moisture. Made for terrestrial reptiles, Repti-View has been designed in a stylish oak wood to compliment any decor and is available in two sizes.

- Available in two sizes - Repti View -862.5 x 388 x 215mm - Repti View Maxi -1150 x 450 x 250mm
- Designed for terrestrial reptiles such as Corn snakes, King snakes, Leopard geckos & Flat tailed geckos
- Easy vent system positioned at the back of the vivarium
- Incorporated heat mat enclosure
- External thermometer holder with Exo Terra thermometer to monitor temperature
- Secure auto lock feature to prevent escapes and keep your pet safe

Deluxe Tortoise Table

The Vivexotic Deluxe Tortoise Table makes an ideal home for Mediterranean Spur Thighed, Horsfield, Hermann's and Marginated tortoise species. Glass panels to the front and sides give you a superb all round view of your tortoise whilst the printed grass pattern prevents your tortoise 'banging' against the glass - a common problem with glass enclosures. The full length removable mesh lid allows full ventilation, whilst preventing other pets jumping into the table and the included easy to fit Exo Terra light bracket makes adding an essential and adjustable overhead heat source simple.

The table can be used on its own or combined with a Vivexotic Large Deep oak cabinet for added storage.

Quality manufactured in the UK, the Vivexotic Deluxe Tortoise Table is easy to assemble and will provide a stylish, durable home for years to come.
