IMPORTANT SAFETY INSTRUCTIONS

A. Do not operate any appliance if it has a damaged cord or plug, or if it is not functioning properly. Return appliance to the nearest authorized service facility for examination, repair, or electrical or mechanical adjustment.

B. Carefully examine the appliance after installation. It should not be plugged in if there is any damage present. If damage is observed, return the appliance to the nearest authorized service facility for examination, repair, or electrical or mechanical adjustment.

C. Do not use this filter pump in swimming pools or other situations where people are likely to come into contact with the water (e.g., hot tubs, water parks, etc.).

WARNING

1. Do not operate the filter in the absence of the foam pad as this could cause the water output to become too strong, potentially leading to injury or property damage.

2. Do not place the filter equipment near flammable or explosive materials.

3. Do not allow children to play with the filter equipment or other aquarium equipment.

4. Do not operate the filter equipment near electrical outlets.

5. Do not operate the filter equipment near heating devices.

6. Do not route the power cord over sharp edges or objects that could cause damage.

SAVE THESE INSTRUCTIONS

INSTRUCTIONS

A. Install the filter equipment in the aquarium as indicated in the diagram provided.

B. Route the power cord as indicated in the diagram provided.

C. Plug the power cord into an electrical outlet as indicated in the diagram provided.

D. Discard the old filter equipment before installing the new filter equipment.

E. Install the new filter equipment as indicated in the diagram provided.

F. Do not operate the filter equipment outside of the aquarium.

G. Do not operate the filter equipment without the carbon side facing out.
